13th year plans following graduation -

Make copies of this document as needed for updates and corrections. The school should keep a copy of this document after the student graduates for the mandated One Year Graduate Follow-Up survey. Prior to graduation the student must fill out a survey card being sure to complete all information. School personnel must explain to the student that a survey will be sent to the address listed on the card about one year from graduation. It is very important that the survey be returned to the school for accreditation purposes.
