

LiveGrades

CITYNET®

Key Benefits of LiveGrades **Compared to Other Available Solutions**

Student/Parent Interface Key Benefits

- User friendly, with clear navigation and ability to find information
- Secure messaging capability, doesn't rely on insecure email transmissions for sensitive information, allows individual and group communication between parents, students, and teachers
- Keeps **grades available indefinitely**, so parents/students can go back and look at previous years, instead of clearing out grades each year (simply select a year and view grades from Kindergarten through graduation!)
- Gives live access to all individual assignment and summary grades as soon as entered by teachers, does not wait for teacher to publish a grade report
- Grades are sortable and in easy to read HTML format, not in confusing text only uploaded formats
- Ability for parent to view **Disciplinary Actions** submitted by teachers or administrators to see when students are having behavioral issues
- Ability for parent to associate **multiple students** to their single login
- Ability for each parent to have their own account for their students (good for divorced parents, grandparents, etc.)
- **Parent and Student Logins persist from year to year**, even as students move from one school to another

Teacher Interface Key Benefits

- Student information, classes, and rosters are **automatically imported from WVEIS**
- **Grades are uploaded to WVEIS** at the end of each term
- User friendly interface, intuitive, easy to use, can quickly add grades, view reports, etc.
- Enables enhanced communication and collaboration between the Teachers and the students/parents through the instant sharing of grades and other information, and the ability to securely communicate through the message center
- **Designed for WV teachers** by working closely with WV teachers from every grade level through focus groups, one on one interviews, group discussions, support sessions, etc.
- **Local, WV support**
- Flexibility and customizability for teachers to adjust the system to their specific needs
- Citynet is able to adapt and develop the software over time to keep in tune with the state/counties changing educational needs and initiatives
- Ability to send secure messages to individual parents, groups of parents, entire classes, entire school, etc.
- Ability to track and inform parents of behavioral problems through the Disciplinary Action system
- Ability to integrate with **WebTop for single sign-on access** from the state's systems
