

RETURN TO LIBRARY  
BY  
OCTOBER 11, 2007

Dear Parent:

Want to hear some really fantastic news? Now that your student is enrolling in high school, he/she has the incredible opportunity to receive college credit for the successful completion of course(s) that are "EDGE eligible." These are high school courses that fit into specific college programs and will allow your student to receive these college credits at **no charge** when they enroll in a participating community and technical college or other participating institution. In some instances, the results may be a savings of over \$1,000 in college tuition charges.

To take advantage of the college credit being offered at the high school, please complete the form below, including your signature and the student's social security number, which will be held with strict confidence in the WV Community and Technical College System office. Then, have your student return the form to the person listed below. This form provides us with the authorization to maintain the EDGE credits that your student earns during the next 3-4 years and forward them to the appropriate institution upon graduation and subsequent enrollment.

If you have any questions or concerns, please contact the student's high school teacher, the local Tech Prep Coordinator or myself. You can also get more information on our Tech Prep website, located at: [www.wvtechprep.wvnet.edu](http://www.wvtechprep.wvnet.edu).

Sincerely,

Dr. Kathy J. D'Antoni  
Vice Chancellor  
Community and Technical College System of West Virginia  
[dantoni@wvctcs.org](mailto:dantoni@wvctcs.org)
