

Dear Parents:

Our school has chosen to use CompassLearning Odyssey®, a Web-based curriculum, to enhance your child's educational experience. In order to proceed successfully with your home use, the workstation must be properly set up, including browser and plug-in installation.

This document is designed to help you and your child get off to a good start by providing the information necessary to complete the workstation setup. Online resources can be accessed from the Resources page, available in the navigation bar after you log in.

Workstation Setup

To ensure that a workstation is properly set up to run the CompassLearning Odyssey program, you will need to verify that all minimum software requirements are met. A requirements list is available by clicking the System Requirements button on the CompassLearning Odyssey home page.

The system check option on the System Requirements page provides assistance in this effort by checking the operating system, browser version, specific browser settings, and plug-ins. Click the Check System button to start the system check. You can easily see which requirements have not yet been met and access the appropriate Web sites via the links provided.

Detailed information on browser settings can be found in the CompassLearning Odyssey Support section, available from the CompassLearning Odyssey home page.

Support Information

For additional assistance in setting up your systems, refer to our Support page at <http://support.compasslearning.com/faq>, or contact your school technical personnel. You may also contact CompassLearning Customer Support at

Email support@compasslearning.com
Web <http://support.compasslearning.com>

The Student Portfolio gives you and your child access to:

- Assignments
- Learning activities
- Chapter tests
- Lesson quizzes
- Objective-based tests

Odyssey login address: <http://www.compasslearningodyssey.com>

Child's login _____ Password _____

Parent's login* _____ Password _____

* Optional. This option may not be set up. If you would like to be able to log in and monitor your child's progress, contact your child's teacher. Also, note that parents with multiple children in a school will have a unique parent login for each child.
